Claims 1-10 and 12-33 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gregg et al (U.S. Patent No. 5,883,109) for the reasons set forth in the Office Action of May 14, 2004.

Claims 1-33 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gregg et al (U.S. Patent No. 5,883,109) in combination with Behr et al (U.S. Patent No. 5,545,414) for the reasons set forth in the Office Action of May 14, 2004.

Applicant's arguments filed October 18, 2004 have been considered but have not been found persuasive.

It has been noted that the instant claims have been amended to exclude MTP inhibitor disclosed by Gregg et al. However, note that Gregg et al disclose that bile acid sequestrants and tetrahydrolipstatin (orlistat) are known cholesterol lowering drugs (column 22, lines 42-55). A person having ordinary skill in the art at the time the instant invention was made would have been motivated to combine any cholesterol lowering drugs in order to lower cholesterol in a patient.

With respect to the applicant's argument that the claimed composition results from applicant's unexpected finding that unpleasant gastrointestinal side effects encountered using orlistat alone could be reduced or eliminated using the claimed bile acid sequestrants, note that the data in the specification is limited to the use of cholestyramine and colestipol (pages 19-20 of the specification). However, none of the claims have been limited to said compounds and it cannot be ascertained what effect other bile acid sequestrants would have on gastrointestinal side effects caused by

orlistat. Therefore, the claimed compositions are still deemed prima facie obvious over the cited prior art.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
